Rules and Conditions

- 1) The Magic Emporium, its staff, IBM Ring 175 and its officers are not responsible for any loss or damages to items left in advance of auction date. The items will be logged in and secured but the above mentioned are not held responsible for loss or damage to theft, fire, natural disasters or any other adverse condition.
- 2) Please package each item(s) together preferably in a clear ziploc bag and include a card/sticker with the corresponding number on the bag that matches this sheet.
- 3) We will auction items off rotating through the seller lists beginning with the first item and working our way down. Please prioritize your items from 1 - 20 in order of priority. We will auction everyones items 1-10 and if time allows we will continue through the second block, items 11-20.
- 4) The IBM Ring 175 will retain 10% of the sales to be placed in the general fund. The balance will be paid to the seller.
- 5) We encourage the sellers to provide good items, complete and include instructions. While we understand everyone wants to earn as much as possible, we encourage you to only place reserves on collectibles or high value items. You are free to place a reserve on items but too much of this will slow the auction down, discourage bids and ultimately make your items more difficult to sell. Place reserve requests wisely. Thank you.
- 6) Any issues or concerns should be brought to the boards attention that evening and the board of directors will reserve the right to make all final decisions.
